DESERT MAINTENANCE REQUEST

Desert Maintenance Requests are evaluated on a case-by case basis; completion of this form does not guarantee approval. *Please provide your email address and you will be notified in writing if your request is approved or denied.*

DID YOU KNOW? On July 26, 1997, the U.S. Army Corps of Engineers completed the identification, or delineation, of washes within the Anthem community that are subject to Section 404 of the Clean Water Act. These areas are defined as Natural Area Open Space (NAOS) and must be maintained in perpetuity in their current natural desert state. Washes are monitored and regulated by the federal government and the U.S. Army Corps of Engineers (USACE) Arizona Regulatory Branch, which closely guards the wash environments annually as a part of the Waters of the State and the Environmental Protection Agency's (EPA) Clean Water Act. For more information please visit OnlineAtAnthem.com/404-washes.
