for the

**FRONT YARD**

and

**REAR YARD ONLY**

*List sorted alphabetically by botanical name.*

## ACCCA APPROVED PLANT LIST - FRONT YARD

*Sorted alphabetically by botanical name. Additional listing sorted by plant type (accent, ground cover, shrubs, trees) and a listing sorted by common names are listed online in the Documents section of the ACCCA website, [www.onlineatanthem.com/accca-documents-forms](http://www.onlineatanthem.com/accca-documents-forms).*

The ACCCA Approved Plant List was developed by the developer and applies to residential Lots of the Anthem Country Club community. Only ACCCA approved plants are allowed on the Lot. This includes potted plants. It is suggested that homeowners research their plant material choices so that the right plant is sited in appropriate locations. Size, light and water requirements, as well as physical qualities of the desired plant such as spines, sharp tips, allergens, amount of litter and plant parts that are unhealthy to people and pets need to be considerations. Palm and citrus plants and trees are prohibited.

Additional plants are available for use in the rear yard of homes in the Anthem Country Club community.

\*Indicates Firewise Plants: Anthem was named a Firewise Community by the National Firewise Community/USA in 2010. Firewise plants are more fire resistant as they maintain a high-moisture content, low resin content, grow slowly and do not need frequent pruning. The use of Firewise plants is recommended.

**Plant Key: A - Accent Plants (includes cactus and succulents); GC - Groundcover; S-Shrubs; T-Trees**

**Accent Plants:** Accent plants are intended to create points of interest in the front and rear yard. Utilize a limited variety of plants in small groupings or clusters to create a unique focal point in the landscape. Random, scattered, free-standing plants are not recommended; using clusters of accent plants with boulders, berms and trees is recommended.

**Groundcover:** Plant groundcover plants in small groups of three or more similar plants to create the most desirable design composition. Random, scattered, free-standing planting is not recommended. Groundcover is best used as a foreground material to provide color adjacent to walks or entrances.

**Shrubs:** Utilize shrubs to create “foundation” planting adjacent to the home. This provides a transition between the home and the ground plane. Shrubs also may be used to provide a good backdrop for groundcover and accent.

**Trees:** When determining tree placement, remember to consider the size of the tree canopy and root system prior to planting. An ocotillo or cactus (saguaro) may be used in place of a tree. Minimum size requirements apply. All trees (new or replacement) requires LEC approval before planting.

## ACCCA APPROVED PLANT LIST - REAR YARD ONLY

Plant Key: A - Accent Plants (includes cactus and succulents); GC - Groundcover; S-Shrubs; T-Tree

	COMMON NAME	BOTANICAL NAME
GC	Sand Verbena, Desert Sand Verbena Verbena	Abronia villosa
S	Indian or Superstition Mallow	Abutilon Palmerii
T	Mulga, Mulga Acacia	Acacia Aneura

<b>T</b>	Berlandier Acacia	<i>Acacia berlandieri</i>
<b>S</b>	Mescat, Whitethorn Acacia	<i>Acacia constricta</i>
<b>T</b>	Mescat, Whitethorn Acacia	<i>Acacia constricta</i>
<b>S</b>	Leather-Leaf Acacia, Broad-leaf Mulga	<i>Acacia Craspedocarpa</i>
<b>S</b>	Catclaw Acacia	<i>Acacia greggii</i>
<b>T</b>	Southwestern Sweet Acacia, Acacia, Catclaw	<i>Acacia greggii</i>
<b>S</b>	Trailing Acacia ("Desert Carpet"), Bank Catclaw	<i>Acacia redolens</i>
<b>A</b>	Chaparro Prieto, Catclaw, Gavia	<i>Acacia rigidula</i>
<b>T</b>	Twisted Acacia, Huisachillo, Dwarf Huisache	<i>Acacia schaffneri</i>
<b>T</b>	Sweet Acacia, Texas Huisache, Sweet Acacia	<i>Acacia smallii</i>
<b>T</b>	Palo Blanco	<i>Acacia willardiana</i>
<b>A</b>	Agave Varieties	Agave species
<b>A</b>	Ice Plant Family	Aizoaceae species
<b>GC</b>	Trailing Windmills, Trailing Four O'Clock, Umbrella Wort	<i>Allionia incarnata</i>
<b>A</b>	Aloe Varieties	Aloe species
<b>S</b>	White Brush	<i>Aloysia lycioides</i>
<b>S</b>	Wright's Bee Bush	<i>Aloysia wrightii</i>
<b>S</b>	Palmer's Amaranth, Careless Weed	<i>Amaranthus palmeri</i>
<b>S</b>	Giant Bursage, Big Bur-sage, Canyon Ragweed	<i>Ambrosia Ambrosiodes</i>
<b>S</b>	Triangle-leaf Bursage, Triangle Burr Ragweed	<i>Ambrosia deltoidea</i>
<b>S</b>	White Bursage, Ragweed	<i>Ambrosia dumosa</i>
<b>GC</b>	Amsonia, Palmer's Bluestar, Slimpod, Star Flower	<i>Amsonia palmeri</i>
<b>GC</b>	Kangaroo-paw	<i>Anigozanthos</i> spp.
<b>S</b>	Mexican Flame, Flame Acanthus	<i>Anisacanthus quadrifidus</i>
<b>S</b>	Desert Honeysuckle	<i>Anisacanthus thurberi</i>
